

MANUFACTURING
COMPANY

RECON

Recon is an established team of professionals with experienced in-house architects, project managers, and construction professionals who have in-depth knowledge of the modular building earned working on construction projects worldwide.

Fields of experience

FACTORY TODAY

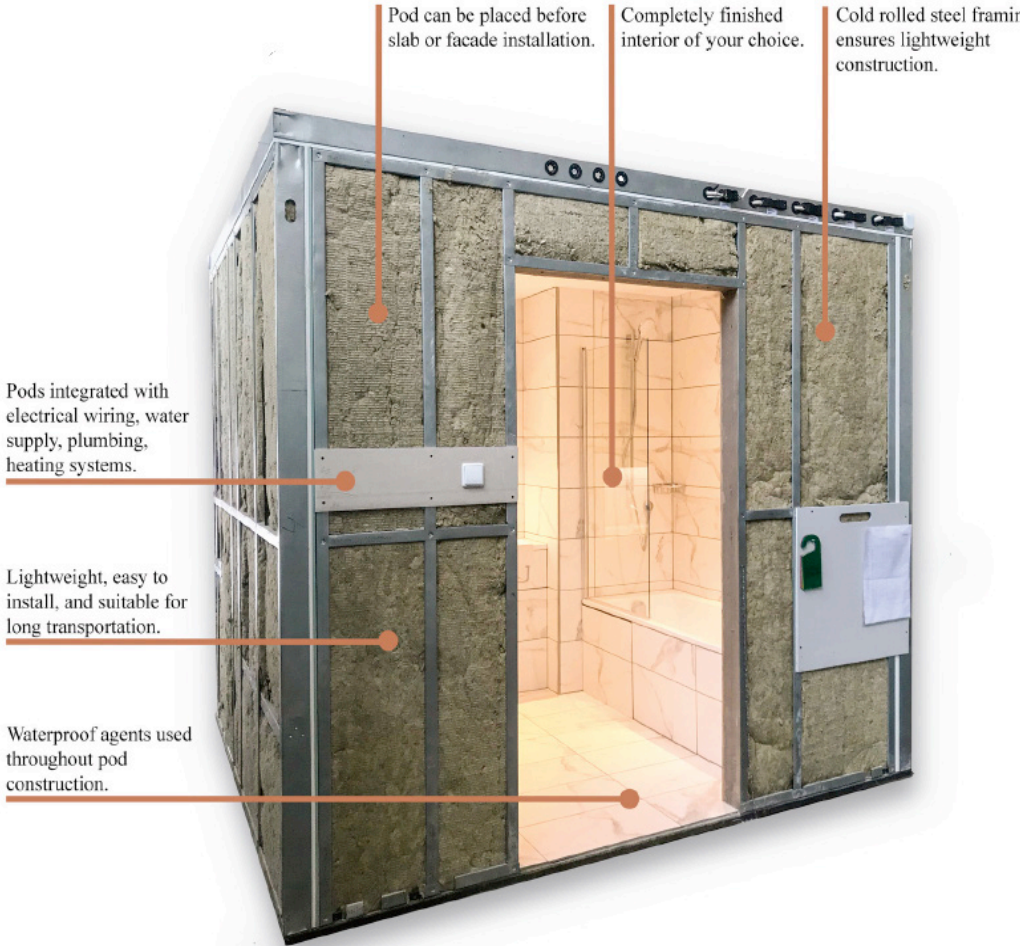

The factory is fully equipped with modern equipment. The advanced technologies are used in all aspects of manufacturing, and the extra attention goes into every single detail of our products.

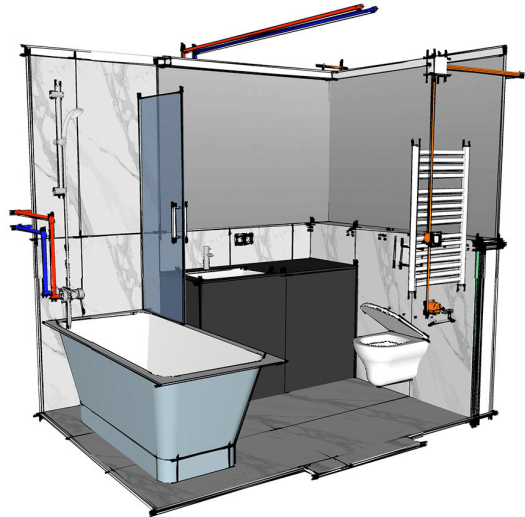

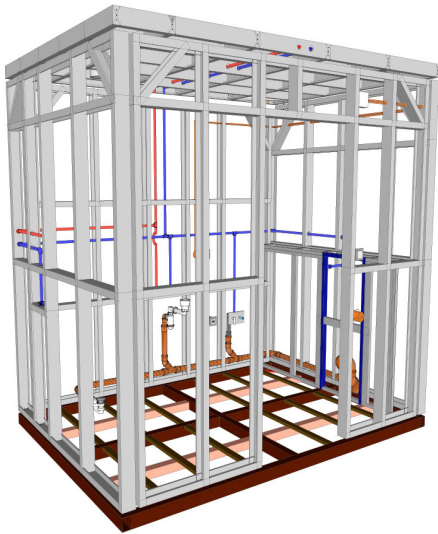

Manufacturing process

RECON MODUL BATHROOM PODS

Our previous experience and current technologies let us manufacture bathrooms in the widest variety of designs. Our designers work with the newest programs to ensure all calculations are correct.

If you are looking for something of a higher specification, Recon Modul bathroom pods are an exclusive way to achieve traditional build quality and the wide diversity of designs.

Interior design

BENEFITS
